

**Make The
Right Choice.**

DIGITEL Call-In Dictation System is the Right Choice.

- Digital Portable Recorders can be useful...
 - Except when you aren't at your pc, so that you can't promptly send your dictations to your secretary.
 - Except when you forget to carry it, or forget to charge its batteries, or you fill up its memory card.
 - Except when you need an affordable solution that can support your entire staff economically.
- Analog Tape Recorders can be useful...
 - Except when you forget to give your tapes to your secretary, or your tapes are misplaced.
 - Except when the tape breaks, or you forget to carry the recorder and fresh batteries with you.
 - Except when your secretary can't quickly locate the position on a tape of your urgent dictations.
- Call-In Dictation Systems that aren't **DIGITEL** can be useful...
 - Except when you want a flexible solution that is upgradeable, and grows with your needs.
 - Except when you need an affordable solution that can handle multiple users calling-in at once.
 - Except when you want a reliable solution that adjusts easily to the needs of each user.
- DIGITEL** lets you and your staff call-in dictations from any phone, anytime.
- DIGITEL** sends your dictations to your secretary's office pc or home pc without delay.
- DIGITEL** lets you get more work done in less time, thus saving you time and money.
- DIGITEL** is affordable, easy to use, simple to install, and includes award winning support.
- DIGITEL** comes with Free Installation and Training, and a 30-Day Money-Back Guarantee.
